“Merimbula Public School provides a caring and nurturing environment where children get the support or extension they need for the best education possible.”

Angi High, parent, Merimbula Public School

“Merimbula Public School encourages students to participate in both school and community activities. Staff are encouraged to pursue professional development as well as engage in team teaching and collegial activities.

“My son loves school, his friends and teachers. He is always eager to practise his numeracy and reading, which is all we could wish for.

‘My daughter is now at high school and Merimbula Public gave her the support and encouragement in literacy, numeracy and drama to prepare her for her future educational needs.

“Merimbula Public School has fabulous facilities, motivated and involved parents and citizens, and professional and dedicated staff who use new and innovative teaching strategies to enhance student learning.”

Please contact the school on 6495 1266 to find out more about the quality education at Merimbula Public School.
