“Merimbula Public School has quality buildings and facilities, strong parental involvement and a friendly and welcoming atmosphere.”

Carol Ashworth and Tony Otton, parents, Merimbula Public School

“Our child has thrived at Merimbula Public School. He enjoys the challenging and stimulating environment, loves participating and exploring, and is a confident learner. He has developed more understanding of the importance of values, making choices, cooperative play and problem solving.

“Staff are proactive and professional and have an open-door policy which encourages discussion to provide positive outcomes for everyone. They encourage and recognise achievement and make the adjustment and transition into school life exciting and happy.

“Merimbula Public participates in various academic and sporting activities in the local community and regularly invites local and international performers and speakers to visit our school. This opens up horizons in our isolated area.”

Please contact the school on 6495 1266 to find out more about the quality education at Merimbula Public School.
